Your Exclusive Invitation

Compliance and Standards Update This Years Top 10 Vulnerabilities Mobile Data – How to Control the Risk

The intention of the update is to give CNS customers and trusted parties an exclusive insight to recent findings, developments, opinions & techniques from CNS' Security Assessment and Compliance teams. Our experts will talk candidly to you about what they know are key concerns within business, and what they see the compliance and security issues to be over the forthcoming years. CNS will also be offering their thoughts and views on recent IT security news and developments from within the industry. We invite you to join our Security Chapter and hear how, in a difficult climate, being informed can make the difference!

This quarter's CNS Security Chapter is your chance to hear directly from the CNS Consultant as they review the past and future trends of regulation, vulnerabilities and Mobile Data.
